WORK PROGRAM

B3.C.01(S) Preparation for State Final Examination

(name of discipline)

Specialty

31.05.01 General Medicine (English-language program)

(code, name)

Degree

Specialist's degree

Profile

02 "Healthcare" (in the field of providing primary health care to the population in medical organizations: polyclinics, outpatient clinics, inpatient/outpatient facilities of the municipal health care system)

Mode of study

Full-time

Period of mastering the BEP

6 years

Institute/Department

of Therapy (Internal Medicine) and Instrumental Diagnostics

Vladivostok – 2026

B3.C.01(S) Preparation for State Final Examination work program is based on:

1) Federal State Educational Standard of Higher Education for the specialty approved by the Order No. 988 of Ministry of Science and Higher Education of the Russian Federation dated August 12, 2020.

2) Curriculum for the 31.05.01 General Medicine (English-language program), profile 02 "Healthcare" (in the field of providing primary health care to the population in medical organizations: polyclinics, outpatient clinics, inpatient/outpatient facilities of the municipal health care system), approved by the Academic Council of FSBEI HE PSMU of the Ministry of Health of Russia, Report No. 1-7/25-26 dated March 27, 2026.

Work program was developed by the writing team of the Institute of Therapy (Internal Medicine) and Instrumental Diagnostics of the FSBEI HE PSMU of the Ministry of Health of Russia, under the guidance of the head of the Institute, Doctor of Medical Sciences, Professor Nevzorova V.A.

Developed by:

Assistant Professor	Candidate of Medical Sciences, Associate professor	Griban A.N.
(position held)	(academic degree, academic title)	(full name)
Assistant Professor	Candidate of Medical Sciences	Rodionova L.V.
(position held)	(academic degree, academic title)	(full name)

1. INTRODUCTION

1.1. Purpose and Objectives of Mastering B3.C.01(S) Preparation for the State Final Examination

The purpose of **B3.C.01(S) Preparation for the State Final Examination** is preparing graduates by developing universal, general professional, and professional competencies necessary to provide labor functions outlined in the "Physician, M.D." occupational standard.

1. Determining the level of knowledge of students;
2. Determining the level of mastery of the practical skills necessary to provide labor functions outlined in the "Physician, M.D." occupational standard (Order of the Ministry of Labor and Social Protection of the Russian Federation No. 293n dated March 21, 2017);
3. Determining the ability and readiness to provide labor functions outlined in the "Physician, M.D." occupational standard (Order of the Ministry of Labor and Social Protection of the Russian Federation No. 293n dated March 21, 2017).

1.2. State Examination as a Part of the Basic Educational Program of Higher Education for Specialty 31.05.01 General Medicine (English-language program), profile 02 "Healthcare" (in the field of providing primary health care to the population in medical organizations: polyclinics, outpatient clinics, inpatient/outpatient facilities of the municipal health care system).

1.2.1. State Final Examination - the final stage of the basic educational program of higher education for the specialty 31.05.01 General Medicine (English-language program), profile 02 "Healthcare" (in the field of providing primary health care to the population in medical organizations: polyclinics, outpatient clinics, inpatient/outpatient facilities of the municipal health care system).

2.2.2. **B3.C.01(S) Preparation for State Final Examination** work program is applicable to all academic disciplines, learning outcomes of which are decisive for professional activity within the framework of the "Physician, M.D." occupational standard (Order of the Ministry of Labor and Social Protection of the Russian Federation 293n dated March 21, 2017).

1.3. Learning outcomes requirements of the basic educational program of higher education for the specialty 31.05.01 General Medicine (English-language program), profile 02 "Healthcare" (in the field of providing primary health care to the population in medical organizations: polyclinics, outpatient clinics, inpatient/outpatient facilities of the municipal health care system).

1.3.1. Types of Professional Activity

1. Medical;
2. Research and development;
3. Managerial and administrative;
4. Pedagogical.

Each type of professional activity of graduates entails following kinds of objectives:

Medical, research and development, pedagogical: examination of the patient in order to make a diagnosis; prescribing pharmacological and non-pharmacological treatment and monitoring its efficiency and safety; implementation and monitoring of the effectiveness of individual medical rehabilitation programs; implementation of anti-epidemic and other measures of public health protection as well as monitoring their effectiveness; implementation of health and hygiene education measures in general population and professionals aimed at development of a healthy lifestyle. Managerial and administrative: management, administrative work.

1.3.2. The State Final Examination allows to assess the development of universal, general professional, and professional competencies outlined in Federal State Educational Standard of Higher Education and defined in the basic educational program of higher education for the specialty 31.05.01 General Medicine (English-language program), profile 02 "Healthcare" (in the field of providing primary health care to the population in medical organizations: polyclinics, outpatient clinics, inpatient/outpatient facilities of the municipal health care system).

2. DOCUMENT BODY**2.1. Scope of the B3.C.01(S) Preparation for the State Final Examination Work Program**

Type of activity		Academic Hours
Preparation for the State Examination on the Theoretical Component of the State Examination		6
Counselling on the Theoretical Component of the State Examination (Pre-Examination Counselling)		6
Preparation for the State Examination on the Practical Component of the State Examination		6
Assessment of the systemic knowledge of the Theoretical Component of the State Examination in test format		6
Demonstration of professional skills and abilities of the Practical Component of the State Examination (check-up)		6
Counselling on the Practical Component of the State Examination (Pre-Examination Counselling)		6
Independent work of students		36
TOTAL		72
PREPARATION FOR AND PROCEDURE OF THE STATE EXAMINATION	credit points	2
	hours	72

2.2. B3.C.01(S) Preparation for State Final Examination Work Program for the specialty 31.05.01 General Medicine (English-language program) Requirements for Educational Materials and Provided Information

3. ASPECTS OF THE B3.C.01(S) PREPARATION FOR THE STATE FINAL EXAMINATION PROGRAM FOR 31.05.01 GENERAL MEDICINE FOR STUDENTS WITH DISABILITIES AND SPECIAL NEEDS

3.1. Availability of Accessible Environment

For students with disabilities and special needs, the state final examination is conducted taking into account health limitations, individual capabilities and medical status of the student. State Final Examination for people with disabilities and special needs is held in the same classroom together with students without disabilities, if this does not cause difficulties for the student with disabilities and other students present; an assistant (assistants), who provide(s) students with the necessary technical assistance (take a seat, move around the classroom, read and write down the assignment, communicate with the staff and members of the State Examination commission) taking into account individual characteristics of the student, is (are) provided; taking into account their individual characteristics, use of the necessary technical means for students with disabilities is allowed; unobstructed access of students with disabilities to the classroom, toilets and other premises, as well as their stay in these premises is ensured (ramps, handrails, extended doorways, elevators (in the absence of elevators, the audience should be located on the ground floor), specialized seats and other devices are present).

All internal policies and procedures on the State Final Examination procedure are made available to students with disabilities in a form accessible to them. The duration of the State Final Examination in relation to the established duration may be increased at the written application of the student with disabilities. The duration of the State Exam in written format may be increased by no more than 90 minutes; the duration of the student's preparation for the State Exam in oral (spoken) format - by no more than 20 minutes; the duration of the student's graduation paper presentation - by no more than 15 minutes. Depending on the individual characteristics of students with disabilities and special needs, the organization ensures the following during the State Final Examination: assignments and other State Examination materials are printed Braille (tactile writing system), provided in digital format on a computer with specialized software for the blind, or are read out loud by an assistant; written assignments are completed by students on paper in Braille, on a computer with specialized software for the blind, or dictated to an assistant; if necessary, students are provided with a set of writing materials and paper for writing in Braille or a computer with specialized software for the blind. For the visually impaired: assignments and State Examination materials are printed using larger font size; individual source of uniform light of at least 300 lux is provided; if necessary, students are provided with a magnifier or are allowed to use their personal magnifier. For deaf and hard of hearing, with severe speech impairments: sound-amplifying equipment for collective use is provided; if necessary, students are provided with sound-amplifying equipment for individual use or State Examination is conducted in written format at the request of the student. For persons with musculoskeletal disorders (severe motor impairments of the upper limbs or absence of the upper limbs): written assignments are completed by students on a computer with specialized software or dictated to an assistant; State Examination is conducted in oral format at the request of the student.

A student with disabilities or special need submits a written request for special conditions to be provided during the State Examination; this application must detail their individual characteristics and be submitted no later than 3 months before the start of the State Final Examination. Documents confirming the student's individual characteristics are attached to the written application (in case these documents were not provided previously). The student indicates the request (absence thereof) for the assistant to be present at the State Examination, the request (absence thereof) to increase the duration of the State Examination in relation to the established duration (for each stage of State Examination).

1.2. Availability of Internal Policies and Procedures of FSBEI HE PSMU of the Ministry of Health of Russia to Students with Disabilities in a Format Accessible to Them.

All internal policies and procedures of FSBEI HE PSMU of the Ministry of Health of Russia concerning the discipline (module) are made available to students with disabilities in a form accessible to them.

4. STAFFING REQUIREMENTS FOR PREPARATION FOR THE STATE FINAL EXAMINATION

Academic teaching personnel that ensure the implementation of educational process meet the requirements of the Federal State Educational Standard of Higher Education for the **31.05.01 General Medicine** specialty; list of the aforementioned personnel is available on the website of the educational organization.
