DISCIPLINE WORK PROGRAM

B1.V.EC.04.04 Osteoplasty in dental implantation

(name of discipline)

Specialty

**31.05.03 Dentistry for foreign
students (English-language program)**
(code, name)

Degree

Specialist's degree

Profile

02 "Healthcare"
(in the field of providing health care in
patients with dental pathology)

Mode of study

Full-time

Period of mastering the BEP

5 years
(nominal length of study)

Institute

of Dentistry

Program of the discipline **B1.V.EC.04.04 Osteoplasty in dental implantation** is based on:

1) Federal State Educational Standard of Higher Education for the specialty approved by the Order No. 984 of Ministry of Science and Higher Education of the Russian Federation dated August 12, 2020.

2) Curriculum for the 31.05.03 Dentistry for foreign students (English-language program), profile 02 "Healthcare" (in the field of providing health care in patients with dental pathology), approved by the Academic Council of FSBEI HE PSMU of the Ministry of Health of Russia Report No. 1-7/25-26 dated March 27, 2026.

Work program for the discipline was developed by the writing team of the Institute of Dentistry of the FSBEI HE PSMU of the Ministry of Health of Russia, under the guidance of the director of the institute, Doctor of Medical Sciences, Associate professor Pervov Yu.Yu.

Developed by:

Assistant professor	Candidate of Medical Sciences, Associate Professor	Peshko A.P.
(position held)	(academic degree, academic title)	(full name)
Assistant	-	Golitsyna A.A.
(position held)	(academic degree, academic title)	(full name)
Assistant	-	Glinskaya O.V.
(position held)	(academic degree, academic title)	(full name)

1. GENERAL PROVISIONS

1.1. Purpose and Objectives of Mastering B1.V.EC.04.04 Osteoplasty in dental implantation

The purpose of mastering the discipline is to achieve universal, general professional, and professional competencies necessary to perform professional functions outlined in the Occupational standard "Dentist (General Dental Practitioner)".

Objectives of mastering the discipline:

1. Develop skills of providing medical aid in outpatient and day hospital settings.

2. DISCIPLINE AS PART OF THE BASIC EDUCATIONAL PROGRAM

Discipline **B1.V.EC.04.04 Osteoplasty in dental implantation** is included in the Variative part of the Block 1 of the basic educational program for the specialty 31.05.03 Dentistry for foreign students (English-language program), profile 02 "Healthcare" (in the field of providing health care in patients with dental pathology), and is part of the 10th semester's curriculum

3. PLANNED LEARNING OUTCOMES OF THE DISCIPLINE

3.1. Mastering the discipline **B1.V.EC.04.04 Osteoplasty in dental implantation** is aimed at the development of students' competencies. The discipline facilitates the development of students' competencies corresponding to the types of professional activity.

Labor function	Code and Name of competency of the graduate	Competency Indicators
Professional Competencies		
A/02.7 Prescribing and monitoring the effectiveness and safety of non-pharmacological and pharmacological therapies	PC-2 ability to administer and apply modern methods and/or digital technologies to treat dental patients as well as monitor the effectiveness and safety of the treatment	AI.PC-2 ₁ - develop treatment plans for dental patients aligning with clinical recommendations, treatment protocols, and medical care procedures and health care standards AI.PC-2 ₂ - demonstrates proficiency in administering non-pharmacological and pharmacological therapies and other treatment methods to dental patients, monitors the efficacy and safety of these methods AI.PC-2 ₃ - proficiently uses modern methods and/or digital technologies to treat dental diseases

3.2. Types of professional activity corresponding to competencies developed over the course of mastering **B1.V.EC.04.04 Osteoplasty in dental implantation**:

Types of professional activity objectives

1. Medical
2. Research and development
3. Pedagogical

Kinds of professional activity objectives

1. *prescribing pharmacological and non-pharmacological treatment and monitoring its efficiency and safety;*

3.3. Planned learning outcomes of mastering the discipline are represented by knowledge, skills, abilities and/or experience, characterize the stages of developing competencies and ensure achievement of the planned outcomes of mastering the basic educational program. Learning outcomes of a discipline are correlated with competency indicators.

4. SCOPE AND CONTENT OF THE DISCIPLINE

4.1. Scope of the Discipline and Types of Academic Work

Type of Academic Work		Total Hours	Semesters
			10
			hours
1		2	3
Classroom hours (total), including:		42	42
Lectures (L)		6	6
Practical classes (C)		36	36
Independent work of the student (IW), including:		30	30
<i>Preparing for classes (CP)</i>		18	18
<i>Preparing for continuous assessment (CAP)</i>		6	6
<i>Preparation for interim assessment (IAP)</i>		6	6
<i>Interim assessment</i>			
Type of interim assessment	pass/fail test (T)	T	T
	exam (E)		
TOTAL: TOTAL credit value	hrs.	72	72
	credits	2	2

4.2. Contents of the Discipline

4.2.1. Topics of Discipline Lectures and Academic Hours per Semester

No.	Lecture Topic	Hours
1	2	3
Semester No. 10		
1.	Development of dental implantation in surgical dentistry and maxillofacial surgery. Diagnosis and treatment planning for patients using dental implants	2
2.	Reconstruction of alveolar bone and gingiva prior to dental implantation. Use of osteoplastic materials to optimize osteogenesis	2
3.	Gum aesthetics, keratinized gum augmentation. Indications and contraindications for surgical intervention	2
	Hours per semester total	6

4.2.2. Topics of Discipline Practical Classes and Academic Hours per Semester

No.	Practical Class Topic	Hours
1	2	3
Semester No. 10		
1	Development of dental implantation in oral and maxillofacial surgery. Diagnosis and treatment planning for patients using dental implants. Structure of surrounding hard and soft tissues. Assessment of peri-implant soft tissue conditions. Integration of hard and soft tissues in the implant area	7
2	The surgical stage of dental implantation. Rationale for professional oral hygiene during implantation and reconstructive interventions on the jaw bones. Post-treatment follow-up. Follow-up examination	7
3	Classification of osteoplastic materials. Use of osteoplastic materials to optimize osteogenesis. Jaw bone grafting, osteoplastic grafting, tunnel osteoplasty. Bone plastic surgery: sinus lift. Guided bone regeneration	7

4	Gum aesthetics, keratinized gingival augmentation. Indications and contraindications for surgical intervention. Criteria for surgical effectiveness. Choice of surgical treatment strategy. Types of flaps, donor sites. Formation of a mucosal flap. Suture material. Types of sutures in dental implantation	7
5	Complications of dental implantation. Diagnosis of diseases around implants. Mucositis. Peri-implantitis. Risk factors for peri-implantitis. Legal aspects in implantology practice. Risks in dental implantology and ways to minimize them. Legal assessment of factors influencing the emergence of conflict situations in dental implantation	8
Hours per semester total		36

4.2.3. Independent Work of the Student

No.	Name of the Discipline Section	Type of IW	Total Hours
1	3	4	5
Semester No. 10			
1	Diagnostics and planning of dental implantation	Written report on select questions, preparing for continuous assessment	10
2	Reconstruction of alveolar bone and gums before dental implantation		10
3	Gum aesthetics, keratinized gum augmentation		10
	Hours per semester total		30

5. REQUIREMENTS FOR IMPLEMENTATION OF DISCIPLINE

5.1. Discipline Requirements for Educational Materials and Provided Information

Essential reading

No.	Name/Title, Resource Type	Author(s)/Editor	Publisher Imprint, Web Address	Number of Copies (accesses) in the Library and Information Center
1	2	3	4	5
1	Fundamentals of Dental Implantology [Electronic resource]: textbook	S.Yu. Ivanov [and others]	M.: GEOTAR-Media, 2017. - 152 p. URL: http://studentlibrary.ru/	Unlimited access
2	Bone grafting before dental implantation [Electronic resource]: textbook	A.A. Kulakov, R.Sh. Gvetadze, T.V. Brailovskaya, S.V. Abrahamyan	M.: GEOTAR-Media, 2018. - 112 p. URL: http://www.studentlibrary.ru	Unlimited access
3	Surgical dentistry: national guidelines [Electronic resource]	edited by A. A. Kulakova	M.: GEOTAR-Media, 2021. - 408 p. URL: http://www.studentlibrary.ru	Unlimited access
4	Essentials of Operative Dentistry: tutorial	F.Yu. Daurova, M.K. Makeeva, Z.S. Khabadze et al.	M.: GEOTAR-Media, 2019. - 510 p. Electronic Library System "Student Consultant"	Unlimited access

Supplementary reading

5.2. Discipline Requirements for Facilities and Resources

Information on the facility and resource availability and requirements of the discipline is available on the [Facility and resource availability and requirements. FSBEI HE PSMU of the Ministry of Health of Russia \(tgmu.ru\)](http://Facility and resource availability and requirements. FSBEI HE PSMU of the Ministry of Health of Russia (tgmu.ru)) page of the official website of the university.

5.3. List of Information Technologies, Information and Reference Systems, Licensed and Free Software (Including Domestically-developed Software):

1. Polycom Telepresence M100 Desktop Conferencing Application (Videoconference system)
2. SunRav Software tTester
3. 7-PDF Split & Merge
4. ABBYY FineReader
5. Kaspersky Endpoint Security
6. INDIGO online testing system
7. Microsoft Windows 7
8. Microsoft Office Pro Plus 2013

9. 1C:University
10. GARANT system
11. MOODLE (Modular Object-Oriented Dynamic Learning Environment)

6. ASPECTS OF THE IMPLEMENTATION OF THE DISCIPLINE FOR STUDENTS WITH DISABILITIES AND SPECIAL NEEDS

6.1. Availability of Accessible Environment

For students with disabilities and special needs, if a written application is submitted, lectures and practical classes are carried out taking into account health limitations, individual capabilities and medical status (hereinafter referred to as individual characteristics) of the student. Compliance with the following general requirements is ensured: teaching aids for collective and individual use are provided, required technical assistance is provided by an assistant; buildings and premises where lectures and practical classes are taking place meet accessibility requirements, other arrangements lack of which makes it impossible or difficult to master the discipline are made.

6.2. Ensuring Compliance with General Requirements

When lectures and practical classes are carried out at the written application of the student, the following general requirements are met: lectures and practical classes for students with disabilities and special needs take place at the same location as for students who do not have disabilities, if this does not cause difficulties for students; an assistant (assistants), who provide(s) students with the necessary technical assistance taking into account individual characteristics of the student, is (are) provided; necessary teaching aids are provided, taking into account individual characteristics of the student.

6.3. Availability of the Internal Policies and Procedures of FSBEI HE PSMU of the Ministry of Health of Russia to Students with Disabilities in a Format Accessible to Them.

All internal policies and procedures of FSBEI HE PSMU of the Ministry of Health of Russia concerning the discipline are made available to students with disabilities in a format accessible to them.

6.4. Increase in the Time Limit of Interim Assessment for Students with Disabilities and Special Needs in Relation to the Established duration

Format of the interim assessment of academic performance within the scope of the discipline conducted for students with disabilities and special needs is selected taking into account individual characteristics of the students (orally, by writing on paper, by typing on a computer, as a test, etc.). The duration of the interim assessment in relation to the established duration is increased at the written application of the student with disabilities. Time limit for the student's preparation for the test is increased by at least 0.5 hours.

7. STAFFING REQUIREMENTS OF THE DISCIPLINE

Academic teaching personnel that ensure the implementation of the discipline education process meet the requirements of the Federal State Educational Standard of Higher Education for the 31.05.03 Dentistry specialty; list of the aforementioned personnel is available on the website of the educational organization.

8. TUTORIAL WORK

Type of tutorial work	Forms and approaches to tutorial work	Assessment criteria
Assistance in personal growth	Overt Talks and problem-centric debates aimed at promotion of healthy lifestyle. Participation in interdepartmental conferences aimed at formation of healthy lifestyle and development of skills necessary to preserve and improve health.	Portfolio
	Covert – creating atmosphere and infrastructure. Developing a culture of healthy lifestyle, the ability to preserve and improve health.	

	Creating atmosphere of kindness and respect with a high level of communication during implementation of the discipline.	
Civic position and values	Overt Conducting events that facilitate development of civil culture (roundtable discussions, discussions/debates, and talks). Short discussions on current significant events in case the latter occur.	Portfolio
	Covert Focusing on civic values-oriented position and legal awareness. Cultivating mindful social position during professional activity.	
Social values	Overt Highlighting aspects of organization of healthy lifestyle based on health-preserving technologies. Highlighting ecology-related questions, environmental issues as a factor affecting population health and select population risks.	Portfolio
	Covert Identification in social structure during period of education and in professional activity.
