--	--

Assessment criteria

"Very good" grade is given to a student who possesses knowledge of the subject in full scope outlined in the curriculum, has a sufficiently deep insight into the subject; is able to answer all questions clearly, exhaustively, and with no outside help; structures their answers logically, with emphasis on the most important information; is able to analyze, compare, classify, summarize, refine, and structure the course content, giving particular attention to cause-and-effect relationships.

"Good" is given to a student whose knowledge of the subject is almost in full scope outlined in the curriculum (gaps are only present in the knowledge of some especially complex aspects); is able to answer questions exhaustively with little to no outside help; does not always put emphasis on the most important information, but does not make significant mistakes.

"Satisfactory" is given to a student who possesses the bulk of knowledge on the subject; has difficulties answering questions with no outside help, uses imprecise wording; makes mistakes in substantial number of their answers.

"Unsatisfactory" is given to a student who does not have the mandatory minimum of knowledge on the subject, is not able to give an answer even with additional guiding questions.

Standardized case studies and checklists for the **B1.O.03 Legal basis of professional activity** course

Case Study No. 1

	Code	Competence description / name of labor function / name of work activity / text
S	31.05.01	General Medicine for international students (in English)
C	UC-1	Is able to analyze of problems critically using system approach and devise a plan of action
C	UC-11	Is intolerant towards corrupt conduct
C	GPC-1	Is able to abide by moral and legal norms, ethical and deontological principles in the professional activity
I		<p>READ THE PROVIDED CASE DESCRIPTION AND GIVE DETAILED ANSWERS TO THE QUESTIONS</p> <p>Dr. Smirnova, working as a dentist at a city dental clinic under the order of the head physician, violated job descriptions and, through improper performance of her professional duties while providing medical care, caused serious bodily harm to five-year-old patient Vika Samsonova under the following circumstances:</p> <ul style="list-style-type: none"> - While instructing nurse working under her supervision to draw 5 ml of lidocaine from a box brought into the office by the girl's mother, dr. Smirnova failed to check the percentage of the medication and failed to supervise or direct the nurse's work. - Believing the lidocaine solution to be 2%, without checking its percentage, and relying on the nurse's judgment, she administered 4 ml of 10% lidocaine solution to anesthetize the child, exceeding the maximum permissible dose by 20 times. - Soon the victim experienced a collapse and was taken to the intensive care unit of the district hospital with a diagnosis of acute lidocaine overdose, hypoxic cerebral edema, and grade 2–3 hypoxic coma.
Q		Question: What type of crime can the actions of dr. Smirnova be classified as?
Q		Question: What characterizes the subjective side of this act?

Case Study No.1 Checklist

	Code	Competence description / name of labor function / name of work activity / text
S	31.05.01	General Medicine for international students (in English)
C	UC-1	Is able to analyze of problems critically using system approach and devise a plan of action
C	UC-11	Is intolerant towards corrupt conduct
C	GPC-1	Is able to abide by moral and legal norms, ethical and deontological principles in the professional activity
I		<p>READ THE PROVIDED CASE DESCRIPTION AND GIVE DETAILED ANSWERS TO THE QUESTIONS</p> <p>Dr. Smirnova, working as a dentist at a city dental clinic under the order of the head physician, violated job descriptions and,</p>

		<p>through improper performance of her professional duties while providing medical care, caused serious bodily harm to five-year-old patient Vika Samsonova under the following circumstances:</p> <ul style="list-style-type: none"> - While instructing nurse working under her supervision to draw 5 ml of lidocaine from a box brought into the office by the girl's mother, dr. Smirnova failed to check the percentage of the medication and failed to supervise or direct the nurse's work. - Believing the lidocaine solution to be 2%, without checking its percentage, and relying on the nurse's judgment, she administered 4 ml of 10% lidocaine solution to anesthetize the child, exceeding the maximum permissible dose by 20 times. - Soon the victim experienced a collapse and was taken to the intensive care unit of the district hospital with a diagnosis of acute lidocaine overdose, hypoxic cerebral edema, and grade 2–3 hypoxic coma.
Q	1	Question: What type of crime can the actions of dr. Smirnova be classified as?
A		<p>Correct answer:</p> <p>Doctor Smirnova caused serious bodily harm to a minor victim through negligence due to improper performance of her professional duties. Her actions must be qualified under Part 2 of Article 118 of the Criminal Code of the Russian Federation.</p>
Q	2	Question: What characterizes the subjective side of this act?
A		<p>Correct answer:</p> <p>While administering an anesthetic injection to a minor patient, the doctor caused an overdose on lidocaine brought by the girl's mother. Taking medications from patients is not recommended, as the clinic should have all necessary medications on hand, but in any case, it was necessary to check what she had taken and how to use it. The negligent culpability manifested itself in negligence—the doctor failed to foresee the possibility of harm, although with due care and caution, she should have and could have foreseen it. The nurse, while drawing the medication into the syringe, should have also announced aloud what she was taking and what she was drawing into the syringe, but this was not done. The doctor was obligated to supervise the nurse's actions. The nurse is subject to disciplinary action.</p>
R2	Very good	A complete, accurate, logical answer with deep understanding, argumentation, competent speech, and no mistakes was given
R1	Good/Satisfactory	<p>The answer is generally complete and correct but not clearly formulated. The student's solution generally matches the reference answer but lacks sufficient theoretical justification.</p> <p>The answer partially answers the question, there are inaccuracies, significant errors, insufficient argumentation.</p>
R0	Fail	The answer is incomplete, there are significant errors, lack of understanding, logic, literacy, and independence

Report / Slides Presentation Topics

	Code	Competence description / name of labor function / name of work activity / text
