COLLECTION OF ASSESSMENT TOOLS
B1.C.04 Latin
of the basic educational program
of Higher Education

Specialty	31.05.03 Dentistry for foreign students (English-language program) (code, name)
Degree	Specialist's degree
Profile	02 "Healthcare" (in the field of providing health care in patients with dental pathology)
Mode of study	Full-time
Period of mastering the BEP	5 years (nominal length of study)
Department	of Foreign Languages

Vladivostok, 2026

1. INTRODUCTION

1.1. Collection of Assessment Tools is a document that regulates the format, content, and types of assessment tools for continuous assessment, interim examination and final (state final) examination, and graded criteria for each type of assessment tools.

1.2. Assessment tools allows to evaluate the development of universal, general professional, and professional competencies (UCs, GPCs and PCs respectively) outlined in Federal State Educational Standard of Higher Education and defined in the basic educational program of higher education for the specialty 31.05.03 Dentistry for foreign students (English-language program), profile 02 "Healthcare" (in the field of providing health care in patients with dental pathology).

([BEP HE for the 31.05.03 Dentistry for foreign students \(English-language program\)](#) specialty, section 3 Learning Outcomes Requirements of the Basic Educational Program of Higher Education)

2. DOCUMENT BODY

2.1. Types of Assessment, Formats of Assessment Tools

No.	Types of assessment	Assessment Tools Format
1	Continuous assessment	Tests
		Interview Questions
		Mini-Case Studies
2	Interim assessment	Tests
		Interview Questions
		Mini-Case Studies

3. The contents of assessment tools for continuous and interim examination are prepared by the teacher of the course

Test questions

	Code	Competence description / name of labor function / name of work activity / text
S	31.05.03	Dentistry for foreign students (English-language program)
C	UC-4	Able to apply modern communicative technologies, including those that require the knowledge of foreign languages, for academic and professional interaction
C	GPC-13	Able to solve professional tasks using information, bibliographic resources as well as medical and biological terminology, information and communication technologies complying with the information security requirements
F	A/05.7	Educate population and medical care providers about hygiene and healthy life style
I		ANSWER LEVEL 1 TEST QUESTIONS (ONE CORRECT ANSWER)
		01 'Mobile cell capable of absorbing and neutralizing bacteria, foreign particles and destroyed cells' is translated into Latin as: +A) phagocytus B) cysta C) polypus

		D) erythema 02 ‘Transformation of one type of tissue into another’ is translated into Latin as: +A) metaplasia B) aplasia C) dysplasia D) plasia 03 ‘Pathological change in the skin due to hyperfunction of the sebaceous glands’ is translated into Latin as: +A) seborrhoea B) pneumatosis C) diarrhoea D) trichorrhoea 04 ‘Rupture of cicatricial adhesions of the meninges with surrounding tissues’ is translated into Latin as: +A) meningolysis B) leucolysis C) haemolysis D) osteolysis 05 ‘Disrupted nutrition of tissues or the whole organism resulting from a metabolic disorder’ is translated into Latin as: +A) dystrophia B) dysuria C) dysphonia D) dysopia 06 ‘Branch of anatomy that studies the patterns of occurrence of disease processes’ is translated into Latin as: +A) pathologia B) dermatologia C) epidemiologia D) oncologia 07 ‘Branch of surgery that deals with surgical interventions on small anatomical structures’ is translated into Latin as: +A) microchirurgia B) dermatologia C) orthodontia D) pathologia
		ANSWER LEVEL 2 TEST QUESTIONS (MULTIPLE CORRECT ANSWERS)
		08 ‘Dens caninus’ is translated as: A) incisor B) canine C) milk tooth D) ‘dog’ tooth Correct answers: B, D 09 ‘Dens molaris’ is translated as: A) molar tooth

		B) milk tooth C) tricuspid tooth D) wisdom tooth Correct answers: A, B 10 ‘Dens premolaris’ is translated as: A) bicuspid tooth B) canine C) incisor D) premolar tooth Correct answers: A, D 11 ‘Lesser horn of the hyoid bone’ is translated into Latin as: A) foramen caecum linguae B) cornu ossis hyoidei minus C) cornu minus ossis hyoidei D) processus temporalis ossis zygomatici Correct answers: B, C 12 ‘Nasal thickening’ is translated into Latin as: A) ala vomeris B) caput stapēdis C) agger nasi D) agger nasalis Correct answers: C, D 13 ‘Mucosa of the mouth’ is translated into Latin as: A) tunica mucosa oris B) mucosa oris C) rima oris D) cavitas oris Correct answers: A, B 14 The Greek term ‘-cele’ means: A) hernia B) tissue C) swelling D) skin Correct answers: A, C 15 The Greek term ‘kerato-’ means: A) cornea B) hair C) keratinization D) nail Correct answers: A, C								
		ANSWER LEVEL 3 TEST QUESTIONS (MATCHING QUESTIONS)								
		16. Match the following <table><tr><td>1) analgesics</td><td>A) -adolum</td></tr><tr><td>2) ethyl group</td><td>B) aeth</td></tr><tr><td>3) antiallergic substance(s)</td><td>C) dol</td></tr><tr><td></td><td>D) aller(g)</td></tr></table> Correct answers: 1 – A, C; 2 – B; 3 – D	1) analgesics	A) -adolum	2) ethyl group	B) aeth	3) antiallergic substance(s)	C) dol		D) aller(g)
1) analgesics	A) -adolum									
2) ethyl group	B) aeth									
3) antiallergic substance(s)	C) dol									
	D) aller(g)									

		17. Match the following
		1) androgens
		2) antihistamines
		3) phenyl group
		A) -andr-
		B) -astin(um)
		C) -ster-
		D) phen(yl)
		Correct answers: 1 – A, C: 2 – B: 3 – D
		18. Match the following
		1) azo-group
		2) barbiturates
		3) related to eye
		A) -(a)zol-, -(a)zid-
		B) barb
		C) -zin-
		D) ocu-
		Correct answers: 1 – A, C: 2 – B: 3 – D
		19. Match the following
		1) choleric
		2) cephalosporin antibiotics
		3) related to heart
		A) bil
		B) ceph- (cef, kef)
		C) chol
		D) card(i)
		Correct answers: 1 – A, C: 2 – B: 3 – D
		20. Match the following
		1) dissolution, dissociation
		2) related to bee venom and other products produced by bees
		3) enzymes
		A) lys
		B) api(s)
		C) lyt
		D) -as-
		Correct answers: 1 – A, C: 2 – B: 3 – D

Assessment criteria

"Very good" – over 80% correct answers of questions of every level

"Good" – 70-79% correct answers of questions of every level

"Satisfactory" – 55-69% correct answers of questions of every level

"Unsatisfactory" – less than 55% correct answers of questions of every level

Interview questions

	Code	Competence description / name of labor function / name of work activity / text
S	31.05.03	Dentistry for foreign students (English-language program)
C	UC-4	Able to apply modern communicative technologies, including those that require the knowledge of foreign languages, for academic and professional interaction

F	A/05.7	Educate population and medical care providers about hygiene and healthy life style
I		ANSWER THE QUESTIONS 01 Describe the rule that doctor must follow when writing a prescription for antibiotics. Correct answer. Antibiotics are quantified in international units (IU). When prescribing medicinal substances quantified in international units (IU), the amount

is prescribed using Arabic numerals in tens, hundreds, thousands, millions.

Recipe: Tetracyclini 100 000 IU

02 Explain how the weight of a pharmaceutical solid is indicated in a prescription.

Correct answer.

The weight of a pharmaceutical solid is most often indicated in grams or fractions of a gram, but the word "gram" is not written; instead, Arabic numerals are used. It is customary to write 1.0 for 1 gram, 0.1 - for 1 decigram, 0.01 - for 1 centigram, and 0.001 - for 1 milligram.

03 Describe how doses lower than 1ml are indicated in a prescription.

Correct answer.

Medication doses below 1ml are counted in drops. The number of drops is indicated by Roman numerals and is placed after the word "drop" in the accusative case: guttam I (singular), guttas II, ...X, ...XX, etc. (plural).

For example: Recipe: Olei Menthae guttas XX.

04 Describe the rule that doctor must follow when writing a prescription with the same amount of two or more ingredients.

Correct answer.

If two or more ingredients are prescribed in the same amount, then the dose is indicated only once in the last line and the adverb "ana" (meaning "equal") is written before the number.

For example: Recipe: Tincturae Convallariae

Tincturae Valerianae ana 10 ml.

05 Order of medicinal substances in a complex prescription is determined by their significance. Write down how an additive which enhances or weakens the effect of the main substance will be indicated in a recipe.

Correct answer.

remedium adjuvans

06 When making a prescription, a doctor must describe the method of using the medicine in a national language. Describe where in a prescription such instructions are written (after which Latin word).

Correct answer.

After the verb "Signa" (Designate) or "Signetur" (Let it be designated. To designate.). "Signetur" (Let them be designated) the doctor should describe how to take the prescribed medicine (not in Latin).

For example: Signa: 1 tablet 3 times a day 30 minutes before meals.

07 Explain what rule a doctor should follow when writing a prescription for narcotic medications in outpatient setting.

Correct answer.

Narcotic drugs for outpatients should be prescribed only on special prescription printed form with a stamp, a round seal of a medical institution, a personal signature, and the doctor's stamp; in addition it

	is signed by the Chief Medical Officer (or their deputy) who is responsible for prescribing narcotic drugs. 08 Write how medications that calm and reduce nervous tension in the body, without causing drowsiness, but making it easier to fall asleep and improving the quality and depth of sleep are indicated in a prescription (in Latin). Correct answer. <i>remedia sedativa</i> 09 Valemidin (Valemidinum), a sedative medication, includes the following active ingredients: valerian tincture, motherwort tincture, hawthorn tincture, peppermint tincture. Write what those components would be called in a prescription in Latin). Correct answer. <i>tinctura Valerianae, tinctura Leonuri, tinctura Crataegi, tinctura Menthae piperitae</i> 10 Baidexan (Bajdexanum), a sedative medication, contains such acidic salt as dexmedetomidine hydrochloride. Write what this salt would be called in a prescription in Latin). Correct answer. <i>Dexmedetomidini hydrochloridum</i>
--	--

Assessment criteria

"**Very good**" – over 80% correct answers of questions of every level

"**Good**" – 70-79% correct answers of questions of every level

"**Satisfactory**" – 55-69% correct answers of questions of every level

"**Unsatisfactory**" – less than 55% correct answers of questions of every level

Standardized case studies and checklists for the **B1.C.04 Latin** course

Case Study No. 1

4. Assessment criteria for learning outcomes

"**Pass**" is given to a student who has shown a sufficiently strong knowledge of the basic concepts of the subject; is able to complete specific practical tasks outlined in the program with no outside help, use recommended reference material, and correctly evaluate the results.

"**Fail**" is given to a student who has significant gaps in knowledge of the basic concepts of the subject, is not able reach the correct solution to a specific practical task outlined in the curriculum even with outside help.
