DISCIPLINE WORK PROGRAM

B1.C.11 Pharmacology

(name of discipline)

Specialty

**31.05.03 Dentistry for foreign
students (English-language program)**
(code, name)

Degree

Specialist's degree

Profile

02 "Healthcare"
(in the field of providing health care in
patients with dental pathology)

Mode of study

Full-time

Period of mastering the BEP

5 years
(nominal length of study)

Department

of Pharmacology and Clinical
Pharmacology

Vladivostok, 2026

Program of the discipline **B1.C.11 Pharmacology** is based on:

1) Federal State Educational Standard of Higher Education for the specialty approved by the Order No. 984 of Ministry of Science and Higher Education of the Russian Federation dated August 12, 2020.

2) Curriculum for the 31.05.03 Dentistry for foreign students (English-language program), profile 02 "Healthcare" (in the field of providing health care in patients with dental pathology), approved by the Academic Council of FSBEI HE PSMU of the Ministry of Health of Russia Report No. 1-7/25-26 dated March 27, 2026.

Work program for the discipline was developed by the writing team of the Department of Pharmacology and Clinical Pharmacology of the FSBEI HE PSMU of the Ministry of Health of Russia, under the guidance of the head of the department, Doctor of Medical Sciences, professor Eliseeva E.V.

Developed by:

<u>Head of the Department</u> (position held)	<u>Doctor of Medical Sciences, Professor</u> (academic degree, academic title)	<u>Eliseeva E.V.</u> (full name)
<u>Assistant professor</u> (position held)	<u>Candidate of Medical Sciences</u> (academic degree, academic title)	<u>Tyrtyschnikova A.V.</u> (full name)
<u>Assistant</u> (position held)	<u>-</u> (academic degree, academic title)	<u>Parichuk K.A.</u> (full name)

1. GENERAL PROVISIONS

1.1. Purpose and Objectives of Mastering B1.C.11 Pharmacology

The purpose of mastering the discipline is obtaining systemic theoretical and applied knowledge on the essence, methods, means, and principles of general and special (specific) pharmacology, as well as preparation for the practical medical activity.

Objectives of mastering the discipline:

1. Learn about the modern stages of creating medications, using modern international standards in preclinical (GLP) and clinical (GCP) research and production (GMP) of medicines;
2. Form a system of basic, fundamental medical and pharmacological knowledge about medications (mechanisms of action of various groups of medications, their pharmacological effects, indications for use and contraindications);
3. Develop the ability to evaluate the possibilities of choosing and using medications based on ideas about their properties in order to effectively and safely prevent, treat, and diagnose diseases of individual systems of the human body, diagnose and eliminate adverse drug reactions (ADRs);
4. Master the principles of prescriptions; develop the ability to write prescriptions for various dosage forms, as well as in certain pathological conditions, based on the peculiarities of pharmacodynamics and pharmacokinetics of medications;
5. Acquire skills of organization of work with medical substances, basic skills of managing prescription documents, rules for storing medications from the list of highly potent and poisonous, as well as narcotic medications and psychotropic substances;
6. Develop skills of working with scientific literature and official statistical reviews;
7. Form the skills of communication with the team;
8. Develop skills of a healthy lifestyle, work life balance, safety regulations and environmental safety control.

2. DISCIPLINE AS PART OF THE BASIC EDUCATIONAL PROGRAM

Discipline **B1.C.11 Pharmacology** is included in the Compulsory part of the Block 1 of the basic educational program for the specialty 31.05.03 Dentistry for foreign students (English-language program), profile 02 "Healthcare" (in the field of providing health care in patients with dental pathology), and is part of the 4th and 5th semesters' curriculum.

3. PLANNED LEARNING OUTCOMES OF THE DISCIPLINE

3.1. Mastering the discipline **B1.O.11 Pharmacology** is aimed at the development of students' competencies. The discipline facilitates the development of students' competencies corresponding to the types of professional activity.

Name of competency category (group)	Code and Name of competency of the graduate	Competency Indicators
General Professional Competencies		
Diagnosis and treatment	GPC-6. Able to administer and control the effectiveness and safety of non-pharmacological and pharmacological therapies	AI.GPC-6 ₁ - creates a treatment plan, administers dosages of medication as well as non-pharmacological treatment regimens adhering to treatment requirements AI.GPC-6 ₂ - monitors therapy effectiveness and adjusts treatment regimens as necessary, utilizes various forms of medication tailored to specific dental treatments AI.GPC-6 ₃ - identifies contraindications and potential adverse events related to medication administration

3.2. Types of professional activity corresponding to competencies developed over the course of mastering **B1.C.11 Pharmacology**:

Types of professional activity objectives

1. *Medical*

Kinds of professional activity objectives

1. *Prescribing pharmacological and non-pharmacological treatment and monitoring its efficiency and safety*

3.3. Planned learning outcomes of mastering the discipline are represented by knowledge, skills, abilities and/or experience, characterize the stages of developing competencies and ensure achievement of the planned outcomes of mastering the basic educational program. Learning outcomes of a discipline are correlated with competency indicators.

4. SCOPE AND CONTENT OF THE DISCIPLINE

4.1. Scope of the Discipline and Types of Academic Work

Type of Academic Work		Total Hours	Semesters	
			4	5
			hours	hours
1		2	3	4
Classroom hours (total), including:		72	48	24
Lectures (L)		20	12	8
Practical classes (C)		52	36	16
Independent work of the student (IW), including:		45	24	21
<i>Preparing for classes (CP)</i>		25	14	11
<i>Preparing for continuous assessment (CAP)</i>		20	10	10
<i>Interim assessment</i>		27		27
Type of interim assessment	pass/fail test (T)			
	exam (E)	E		E
TOTAL: TOTAL credit value	hrs.	144	72	72
	credits	4	2	2

4.2. Contents of the Discipline

4.2.1. Topics of Discipline Lectures and Academic Hours per Semester

No.	Lecture Topic	Hours
1	2	3
Semester No. 4		
1.	Subject and objectives of pharmacology. Pharmacokinetics and pharmacodynamics	2
2.	Agents affecting afferent and efferent innervation. Local anesthetics. Choline mimetics and choline blockers	2
3.	Adrenergic agents	2
4.	Agents affecting the central nervous system. General anesthetics. Hypnotics. Anxiolytics	2
5.	Physiology and pharmacology of pain. Classification of anesthetics (painkillers). Opioid (narcotic) and non-opioid (non-narcotic) analgesics	2

6.	Medications affecting blood coagulation, anticoagulation, and thrombogenesis	2
Hours per semester total		12
Semester No. 5		
1.	Preparations of steroid hormones	2
2.	Medications affecting hematopoiesis and regeneration. Medications affecting immunity. Pharmacological characterization of vitamins. Medications that regulate the level of calcium and phosphorus in the body	2
3.	Antimicrobial chemotherapy. Antibiotic medications. Classification and mechanism of action. General principles of antimicrobial chemotherapy. Antiseptics and disinfectants	2
4.	Antifungal and antiviral agents	2
Hours per semester total		8

4.2.2. Topics of Discipline Practical Classes and Academic Hours per Semester

No.	Practical Class Topic	Hours
1	2	3
Semester No. 4		
1	Introduction to the general prescription. Solid dosage forms and rules for prescribing them. Semi-solid (soft) dosage forms and rules for prescribing them. Liquid dosage forms and rules for prescribing them	4
2	General pharmacology. Principles of finding new medications. Evidence-based medicine: principles, levels of evidence. Pharmacokinetics. Pharmacodynamics Knowledge control: "Module 1. General pharmacology and general prescription"	4
3	Agents affecting afferent innervation. M-cholinergic agents. N-cholinergic agents	4
4	Adrenergic agents. Sympathomimetics. Sympatholytics. Dopaminergic medications. Pharmacological Regulation of histamin- and serotonergic synapses	4
5	General anesthetics. Hypnotics. Antipsychotics. Anesthetics (painkillers). Opioid (narcotic) analgesics.	4
6	Non-opioid (non-narcotic) analgesics. Nonsteroidal anti-inflammatory drugs (NSAIDs) Knowledge control: "Module 2. Agents affecting afferent and efferent innervation"	4
7	Hypotensive (antihypertensive) medications. Hypertensive medications. Diuretics. Medications for treatment of heart failure. Medications for treatment of coronary artery disease	4
8	Medications affecting blood coagulation, anticoagulation, and thrombogenesis. Knowledge control: "Module 3. Medications affecting the functions of executive organs"	4
9	Preparations of steroid hormones. Antitussive agents and expectorants	4
Hours per semester total		36
Semester No. 5		
1	Medications affecting immunity. Anticancer agents	4
2	Medications affecting hematopoiesis and regeneration. Pharmacological characterization of vitamins. Medications that regulate the level of calcium and phosphorus in the body Knowledge control: "Module 4. Replacement therapy agents with a predominant effect on the tissue metabolism, inflammation, and immune processes"	4
3	General principles of rational antimicrobial chemotherapy. Antibiotic medications. Synthetic antibacterial chemotherapeutic medications. Antiseptics and disinfectants	4
4	Antifungal agents. Antiparasitic agents. Antiviral agents. Antituberculous medications.	4

	Knowledge control: "Module 5. Antimicrobial, antiviral and antiparasitic agents"	
Hours per semester total		16

4.2.3. Independent Work of the Student

No.	Name of the Discipline Section	Type of IW	Total Hours
1	3	4	5
Semester No. 4			
1	Module 1. General pharmacology and general prescription"	1. Working with the website of the Ministry of Health of the Russian Federation https://www.rosminzdrav.ru/ http://www.pharmgkb.org/ 2. Solving practice problems / working with case studies; 3. Working with prescriptions workbook; 4. Preparing for continuous assessment	8
2	Module 2. Agents affecting afferent and efferent innervation	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment	8
3	Module 3. Medications affecting the functions of executive organs	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment	8
Hours per semester total			24
Semester No. 5			
1	Module 4. Replacement therapy agents with a predominant effect on the tissue metabolism, inflammation, and immune processes	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment	10
2	Module 5. Antimicrobial, antiviral and antiparasitic agents	1. Preparing for classes, writing a report on the results; 2. Working with prescriptions workbook; 3. Solving practice problems / working with case studies; 4. Preparing for continuous assessment; 5. Working with the website of the U.S. Food and Drug Administration https://www.fda.gov/drugs	11
Hours per semester total			21

5. REQUIREMENTS FOR IMPLEMENTATION OF DISCIPLINE

5.1. Discipline Requirements for Educational Materials and Provided Information

Essential reading

No.	Name/Title, Resource Type	Author(s)/Editor	Publisher Imprint, Web Address	Number of Copies
-----	---------------------------	------------------	--------------------------------	------------------

				(accesses) in the Library and Information Center
1	2	3	4	5
1	Pharmacology, Textbook [Электронный ресурс]	Kharkevitch D.A.	Kharkevitch, D. A. Pharmacology : Textbook / Translation of Russian textbook, 12th edition, revised and improved. - М. : ГЭОТАР-Медиа, 2018. - 2nd edition. - 680 pages with illustrations. - 680 с. - ISBN 978-5-9704-4307-1. 5.2. Discipline Requirements for Facilities and Resources

Information on the facility and resource availability and requirements of the discipline is available on the [Facility and resource availability and requirements. FSBEI HE PSMU of the Ministry of Health of Russia \(tgmu.ru\)](http://tgmu.ru) page of the official website of the university.

5.3. List of Information Technologies, Information and Reference Systems, Licensed and Free Software (Including Domestically-developed Software):

1. PolycomTelepresence M100 Desktop Conferencing Application (Videoconference system)
2. SunRav Software tTester
3. 7-PDF Split & Merge
4. ABBYYFineReader
5. Kaspersky Endpoint Security
6. INDIGO online testing system
7. Microsoft Windows 7
8. Microsoft Office Pro Plus 2013
9. 1C:University
10. GARANT system
11. MOODLE (Modular Object-Oriented Dynamic Learning Environment)

6. ASPECTS OF THE IMPLEMENTATION OF THE DISCIPLINE FOR STUDENTS WITH DISABILITIES AND SPECIAL NEEDS

6.1. Availability of Accessible Environment

For students with disabilities and special needs, if a written application is submitted, lectures and practical classes are carried out taking into account health limitations, individual capabilities and medical status (hereinafter referred to as individual characteristics) of the student. Compliance with the following general requirements is ensured: teaching aids for collective and individual use are provided, required technical assistance is provided by an assistant; buildings and premises where lectures and practical classes are taking place meet accessibility requirements, other arrangements lack of which makes it impossible or difficult to master the discipline are made.

6.2. Ensuring Compliance with General Requirements

When lectures and practical classes are carried out at the written application of the student, the following general requirements are met: lectures and practical classes for students with disabilities and special needs take place at the same location as for students who do not have disabilities, if this does not cause difficulties for students; an assistant (assistants), who provide(s) students with the necessary technical assistance taking into account individual characteristics of the student, is (are) provided; necessary teaching aids are provided, taking into account individual characteristics of the student.

6.3. Availability of the Internal Policies and Procedures of FSBEI HE PSMU of the Ministry of Health of Russia to Students with Disabilities in a Format Accessible to Them.

All internal policies and procedures of FSBEI HE PSMU of the Ministry of Health of Russia concerning the discipline are made available to students with disabilities in a format accessible to them.

6.4. Increase in the Time Limit of Interim Assessment for Students with Disabilities and Special Needs in Relation to the Established duration

Format of the interim assessment of academic performance within the scope of the discipline conducted for students with disabilities and special needs is selected taking into account individual characteristics of the students (orally, by writing on paper, by typing on a computer, as a test, etc.). The duration of the interim assessment in relation to the established duration is increased at the written application of the student with disabilities. Time limit for the student's preparation for the test is increased by at least 0.5 hours.

7. STAFFING REQUIREMENTS OF THE DISCIPLINE

Academic teaching personnel that ensure the implementation of the discipline education process meet the requirements of the Federal State Educational Standard of Higher Education for the 31.05.03 Dentistry; list of the aforementioned personnel is available on the website of the educational organization.

8. TUTORIAL WORK

Type of tutorial work	Forms and approaches to tutorial work	Assessment criteria
Assistance in personal growth	Overt Talks and problem-centric debates aimed at promotion of healthy lifestyle. Participation in interdepartmental conferences aimed at formation of healthy lifestyle and development of skills necessary to preserve and improve health.	Portfolio
	Covert – creating atmosphere and infrastructure. Developing a culture of healthy lifestyle, the ability to preserve and improve health. Creating atmosphere of kindness and respect with a high level of communication during implementation of the discipline.	
Civic position and values	Overt Conducting events that facilitate development of civil culture (roundtable discussions, discussions/debates, and talks). Short discussions on current significant events in case the latter occur.	Portfolio
	Covert Focusing on civic values-oriented position and legal awareness. Cultivating mindful social position during professional activity.	
Social values	Overt Highlighting aspects of organization of healthy lifestyle based on health-preserving technologies. Highlighting ecology-related questions, environmental issues as a factor affecting population health and select population risks.	Portfolio
	Covert Identification in social structure during period of education and in professional activity.
